

We have reached an important milestone in the 2020 Census: more than half of the households in our nation have responded: **that's nearly 80 Million responses.**

I filled out the Census this morning, which took me about 10 minutes to answer several simple questions. You'll need to know the date of birth of all who reside at your address as of April 1, 2020.

The census responses help to determine the amount of service provided to the people living in a certain locality.

This weekend will be a **DIGITAL ACTION WEEKEND, May 1-3, 2020**. Please join me by filling out a 2020 Census Form this weekend. Please do so at your earliest convenience as this is only for **THIS WEEKEND**.

Use the following link to reach the 2020 Census Questionnaire:
